Pamplin Elementary PTA holds meeting

The Pamplin Elementary School held its regular PTA meeting March 18. The fourth and fifth grades presented an evening of jazz music as part of the program.

Miss Sally Inge was mistress of ceremonies for the performance of these enthusiastic young musicians. The program included such hits as Al Jolson's **I'm A Yankee Doodle Dandy, Down By The Riverside,** and Harry Chapin's **Hand.** Miss Kelly Webber took us back to the days of the "flapper" as she danced the Charleston to **The Best of Spike Jones.**

Once a week the fourth and fifth grade classes of Mrs. Sadie W. Brightwell and Mrs. Nancy M. Dickerson have music with Miss Shelby Shelton. Miss Shelton says this half hour is the most rewarding part of her week because the students are so eager to learn and these two classes are so well disciplined by their teachers that a favorable learning environment is present. This makes teaching enjoyable.

Visitors during the weekend of Mr. and Mrs. C. W. Morris were Mr. and Mrs. Billy Morris and Rodney, Linda Morris and Denny Bryant, all of Richmond.

Friends of Mrs. Lucy Glover will be glad to know that she is much improved after spending last week in a hospital. She returned to the home of Mr. and Mrs. Harold Glover in Warner Robins, Georgia Saturday.

Higher target prices for wheat and grain in 1980

By TOM CONRAD

There have been some changes in the 1980 farm programs, including higher target prices for wheat and feed grains. Producers who stay within their normal crop acreage (NCA) will qualify for farm program benefits based upon the new announced target prices.

ASCS Today

The Agricultural Adjustment Act of 1980 recently signed by President Carter, raises the 1980 wheat target price to $3.63 a bushel and the 1980 corn target price to $2.35 a bushel. The 1980 sorghum and barley target prices have been set at $2.50 and $2.55 per bushel, respectively.

Producers who want to receive the higher target prices must stay within their normal crop acreage.

Those who exceed their NCA will receive benefits based upon the formula target in the Food and Agriculture Act of 1977. This formula establishes 1980 target prices for wheat at $3.08, corn at $2.05, sorghum at $2.45 and barley at $2.29.

The new act extends the disaster program through the 1980 crop year for producers of wheat and feed grains. Producers who plant within their NCA will be eligible for disaster payments on wheat and feed grains based on the higher target levels.

Premeasurement - This service is important to all producers of tobacco and/or wheat and feed grains.

In years prior to 1979 about 15 percent of tobacco farms were checked in the summer to determine compliance. Last year all farms were checked and again this year they will be checked. You can guarantee yourself in compliance by applying for premeasurement.

Farmers with an established NCA on their farm should consider premeasurement this year to guarantee themselves full target price protection. By having your wheat and/or feed grains premeasured you can be assured of being within your NCA and this will make you eligible for full target price protection as well as disaster payments in the event a disaster occurs.

In addition, by having your exact acreage, you can be sure of costs as well as production.

Flue-Cured Tobacco - April 15 will be the final date for spring leasing and also the initial designation period of warehouses.

Last week we sent an individual letter with a list of the warehouses to flue-cured producers. You are urged to check the list and come to the ASCS office to designate as soon as possible. Avoid the last minute rush by coming now.

Mrs. Hazel Lee Martin, President of the Appomattox Chapter of the United Daughters of the Confederacy welcomes new member, Mrs. Pat Davis, into the chapter and presents membership certificate.
